ANNUAL REPORT

on the

Building and Loan Associations

of the

State of California

by the

BUILDING AND LOAN COMMISSIONER

In accordance with an Act of the Legislature, approved April 5, 1911, to
His Excellency WILLIAM D. STEPHENS, Governor
of the State of California

AUGUST 15, 1919

CALIFORNIA STATE PRINTING OFFICE
SACRAMENTO
1919

REPORT OF THE BUREAU OF BUILDING AND LOAN SUPERVISION.

OFFICE OF THE BUILDING AND LOAN COMMISSIONER,

SAN FRANCISCO, August 15, 1919.

*To His Excellency, WILLIAM D. STEPHENS,
Governor of California.*

SIR: The seventieth fiscal year of this state, ended June 30, 1919, has passed into history; the duties imposed by law upon this office have been performed and are also matters of history which it now becomes my duty, in compliance with the requirements of section 5 of the Building and Loan Commission Act, to submit for your consideration, as the Twenty-sixth Annual Report of this department, concerning the operations and condition of the building and loan associations of California for that fiscal year, which I have the honor herewith to do.

The great emergencies resulting from the abnormal requirements of the late war created new, grave and unexpected obligations and conditions which appear to have been solved by the associations in such a manner as to permit of a material increase in the assets in much the larger percentage of individual cases, and an apparently improved financial condition as to all.

The number of associations on the active list remain the same as at the date of the last annual report, namely, 86, one small association retiring for lack of local support, and one new one being formed, the first report of which is due to appear in the report for 1920; hence the tabulations herein result from the reports of 85 associations.

The gross assets of these 85 associations now aggregate \$38,374,331.91, indicating a net increase of \$1,253,333.00 during the year, virtually all of which is represented by a gross increase of \$734,879.08 in loans upon real estate and stock security, and \$582,890.62, mainly in United States Liberty and Victory Bonds and War Savings Stamps.

The investment in Liberty and Victory Bonds and War Savings Stamps accomplished a double purpose—aid to the government during the strenuous days of its necessity, and a desire that otherwise idle funds should be earning a little something with which to declare dividends to members and investors.

The schedule of "Distribution of Assets by Counties" shows a net increase in the assets of 19 of the 27 counties listed, and a net decrease in the remaining eight.

The distribution of this increase and decrease appears to be as follows:

	Number showing gains	Number showing a decrease	Largest percentage of gains	Largest percentage of loss
30 associations with assets under \$100,000-----	19	11	60	21
31 associations with assets of \$100,000 to \$500,000--	16	15	50	13
16 associations with assets of \$500,000 to \$1,000,000	8	8	27	11
8 associations with assets of over \$1,000,000-----	8	-----	13	-----

The schedule of "Loans, Investment, Profits and Reserve—By Counties," shows the distribution of the loans, invested capital, profits apportioned and unpaid, and the reserve and undivided profits of the associations in the several counties.

From an examination of the schedule "Changes in Assets and Liabilities During the Past Year," it will be noted that the investments in shares and certificates have been increased as follows: Guarantee capital, \$122,555.57; installment shares, \$83,330.38; paid-up shares, \$867,019.71; investment certificates, \$239,980.89. The principal decreases have been sundry assets, \$129,240.46, and the liabilities on loans due and incomplete, \$133,998.83, and sundry ledger accounts, \$192,736.48.

A new schedule, "Changes in Assets and Liabilities Since the Annual Report of 1910," furnishes a condensed history of the changes in the assets and liabilities that have occurred since the date of that report.

While the volume of loans for the past year shows an increase of \$734,879.98, the reported number of borrowers shows a decrease of 77, and a consequent increase in volume of the average loan per borrower from \$1,605.33 to \$1,646.32.

The number of real estate loans for the year is reported as 4,121, a decrease of 520; the new loans for building purposes appear to have been 917, a decrease of 299.

From the reports of the past five years, including the present report, the new real estate loans and new loans for building purposes appear as follows:

Report for	Real estate loans	Building loans	Percentage of building loans
1915 -----	4,303	1,711	39.76
1916 -----	5,113	1,743	34.19
1917 -----	5,816	1,822	31.33
1918 -----	4,641	1,216	26.20
1919 -----	4,121	917	22.25

The decrease in the percentage of loans for building purposes is largely because of war conditions which caused materials of all sorts, and labor as well, to advance in price so rapidly that prospective builders concluded to wait until a more substantial basis was reached. It is now apparent to all that old-time prices and conditions will never obtain again; builders realize this, and we are now entering upon a building boom limited only by lack of labor and materials rather than prices. Next year's report will probably show an increase in the percentage of building loans.

The number of shareholders and investors, as reported, shows a decrease of 2,172, while the investments of all kinds have increased \$1,312,886.55, making an average investment of \$912.70, and indicating that the volume of new investments has been more largely confined to the fully paid-up shares and investment certificates, at a fixed rate of dividend.

Fifty-seven associations report the holding of 346 pieces of real estate, an increase of 30 pieces, with an aggregate book value of \$1,480,305.28, the equivalent of 3.85 per cent of the gross assets, and an increase of \$80,029.72 over the holdings at last report. The reported sales during the year were \$1,190,521.76:

The reserve and undivided profits now aggregate \$1,582,012.69, an increase of \$112,225.77, the equivalent of 4.64 per cent of the average loans in force for the year, and 4.67 per cent of all credits to shareholders and investors, other than the holders of guarantee stock, the principal of which now amounts to \$1,176,074.05, and the surplus or reserve belonging thereto to \$270,157.32, the latter of which, under the text of the law, is presumed to be gradually increased to, and thereafter maintained at, 50 per cent of the paid-in guarantee capital, as a further guarantee to investors in associations issuing that class of stock, while in the mutual associations the reserve is to be accumulated to and thereafter maintained at 5 per cent of the average loans in force.

The net profits reported amount to 7.078 per cent upon the average amount of loans in force for the year, or 7.58 per cent of the average dues capital. The operating expenses were the equivalent of 1.211 per cent of the average loans, or 1.297 per cent of the average dues capital.

During the year the reported disbursements to shareholders and investors on account of withdrawals were:

On account of dues and invested capital-----	\$8,261,068 06
On account of profits and dividends-----	2,138,136 53
An aggregate of-----	\$10,399,204 59

or more than 30 per cent of the liability to shareholders and investors at the beginning of the year.

LOANING RATES.

The 85 associations made loans at 12 different rates of interest, as follows:

Thirty associations with assets of less than \$100,000 loaned at rates varying from 7 to 10 per cent, the mean average of which is 7.96 per cent.

Thirty-one associations with assets between \$100,000 and \$500,000 loaned at rates varying from 6 to 10.20 per cent, the mean average of which is 7.87 per cent.

Sixteen associations with assets of \$500,000 to \$1,000,000 loaned at varying rates from 7 to 10.80 per cent, with a mean average of 8.03 per cent.

Eight associations with assets of over \$1,000,000 each, with loaning rates varying from 6 to 10 per cent, show a mean average of 8 per cent.

The mean average of all the above rates is 7.97 per cent.

The gross income from interest during the past fiscal year is the equivalent of 8.349 per cent of the average of all loans in force for the year, or .084 of 1 per cent in excess of the apparent rate shown in the last report.

Elsewhere the apparent gross income is calculated as being 8.402 per cent upon the average loans. These several calculations, when assembled, compare as follows:

Mean average of all interest rates.....	7.970 per cent
Income from interest collections.....	8.349 per cent
Apparent gross income.....	8.402 per cent

OPERATING EXPENSE.

(Based on loans in force, and average dividend rates.)

	Highest expense (per cent)	Lowest expense (per cent)	Mean average (per cent)	Average dividend rate (per cent)
30 associations with assets under \$100,000.....	6.12	0.60	1.30	6.06
31 associations with assets of \$100,000 to \$500,000.....	2.80	0.56	1.39	7.11
16 associations with assets of \$500,000 to \$1,000,000.....	2.34	0.59	1.23	6.90
8 associations with assets of over \$1,000,000.....	2.04	0.51	0.98	8.02
Mean average	3.32	0.56	1.225	7.022

It will be observed elsewhere that the apportionment of dividends to the several classes of investments has been as follows:

To installment shares.....	\$949,037 80
To full paid shares.....	472,715 40
To investment certificates.....	671,374 24
To guarantee stock.....	141,221 42

		1.385

OPERATING EXPENSES TO LOANS.

Eliminating the element of taxes, over which the management has no control, the real operating expenses then appear as follows:

For salaries	0.689 per cent
For other expenses	0.522 per cent

Or a total of 1.211 per cent
upon the average loans in force as against 1.229 per cent for the report of 1918.

OPERATING EXPENSES TO DUES CAPITAL.

The percentage of operating expenses to Dues Capital paid in on all classes and certificates appears as follows:

For salaries	0.738 per cent
For other expenses	0.559 per cent

Or a total of 1.297 per cent
as against the 1918 percentage of 1.392 per cent.

GROSS INCOME AND PERCENTAGE OF EXPENSES TO INCOME.

The percentages of the apparent gross income of all associations to the average volume of "loans in force" for each of the past three years are very closely approximated to be as follows:

	1919 (per cent)	1918 (per cent)	1917 (per cent)
Net profits reported	7.078	6.964	7.353
Taxes paid	0.131	0.156	0.167
Operating expenses	1.211	1.229	1.145
Apparent gross income	8.420	8.349	8.665
Ratio of operating expenses to gross income	14.382	14.720	13.214

GROSS INCOME AND PERCENTAGE OF EXPENSES TO DUES CAPITAL.

Applying the same calculations to the "Dues Capital" paid in and in force for the past three years we then have,

	1919 (per cent)	1918 (per cent)	1917 (per cent)
Net profits reported	7.583	7.889	8.354
Taxes paid	0.141	0.177	0.207
Operating expenses	1.297	1.392	1.418
Apparent gross income	9.021	9.458	9.979
Ratio of operating expenses	14.377	14.718	14.209

The affairs of the four associations reported in process of liquidation at date of last report, viz:

Mission Home of San Francisco.

Continental of San Francisco.

State of California Mutual of San Diego.

Benicia Building and Loan of Benicia, have not as yet been entirely closed, due mainly to inability to complete realization upon real estate owned. A further dividend in liquidation of $7\frac{1}{2}$ per cent has been paid in the case of the Benicia Building and Loan Association, thereby increasing the aggregate to $68\frac{1}{2}$. The final distribution will be made when realization upon real estate so owned is completed.

During the past year one association—the Vallejo Building and Loan Association—ceased business, transferred its loans to a local bank, liquidated its liabilities and has applied to the proper court for judgment of disincorporation. The reason assigned for this action was lack of local support.

One new association—the Guaranty Building and Loan Association of San Jose—completed its organization early in June, and it is expected that the next report of this office will be able to chronicle the formation of several others, as numerous inquiries for the laws and instructions have recently come to hand from various promising localities.

During the late session of the legislature a new section—647a—was added to the Civil Code, permitting two or more associations to become consolidated without the necessity of any dissolution or division of their funds, or the disposition of the assets of either, thereby facilitating the consolidation of two or more small associations in the same locality, a proceeding that, at times, is very desirable and beneficial to future success. Two other amendments, having special reference to the better protection of the associations and the investors therein, were desired but failed to secure the necessary votes for adoption.

Localities in the more remote sections of the state are seriously considering the formation of new associations, as a material aid to the upbuilding of their communities. Should these materialize the increase of the traveling and examination expenses that will be entailed thereby will necessitate an early amendment to the existing law to make provisions therefor, as it is only by rigid economy that the present allowance can now be made sufficient for the demands upon it.

The United States League of Building and Loan Associations, acting in conjunction with the Division of Public Works and Construction of the Department of Labor, at Washington, have in process of formulation for early presentation in Congress an act to provide for the formation and conduct of a federal building loan board and the establishment of regional building loan banks, patterned after the idea of the "Federal Reserve" and the "Farm Loan Banks," to aid the building and loan associations that became subscribers and members in

securing additional funds, at a low rate of interest, with which to make loans for the construction of new homes, and thereby aid in relieving the housing congestion so acute in many localities. The demand for legislation of this nature appears to be quite universal with the associations throughout the Middle West and Eastern States; and the California State League, at its session at Pomona in May last, unanimously endorsed the movement, irrespective of any considerations of prospective benefit that might hereafter accrue.

Should the prospective legislation become an established reality, California, as the state with the largest number of associations and with the largest assets of any state on the western slope of the Rocky Mountains, would seem to be the logical state in which the extreme western regional bank should be located. Action looking to realize such a consummation would seem to be extremely pertinent when the proper time therefor arrives.

CONCLUSION.

Immediately following in the published report will be found a detailed statement of the receipts of this department, the names and addresses of the several secretaries, and the usual "Appendix" containing a condensed annual statement of the condition of each association, as of the close of its fiscal year, arranged in alphabetical order both as to the city or town of location and to names of the associations therein, closing with the latest report of foreign associations doing business in this state.

Respectfully submitted.

GEO. S. WALKER,
Commissioner.

by the

BUILDING AND LOAN COMMISSIONER

In accordance with an Act of the Legislature, approved April 5, 1911, to
His Excellency WILLIAM D. STEPHENS, Governor
of the State of California

SACRAMENTO

1920

REPORT

OF THE

BUREAU OF BUILDING AND LOAN SUPERVISION.

OFFICE OF THE BUILDING AND LOAN COMMISSIONER,
SAN FRANCISCO, August 30, 1920.

To His Excellency, WILLIAM D. STEPHENS,
Governor of California.

SIR: In compliance with the requirements of section 5 of the Building and Loan Commission Act, I am submitting for your consideration the Twenty-seventh Annual Report of this department, concerning the operations and condition, collectively and individually, of the building and loan associations of California for and during the seventy-first fiscal year of this state, ended June 30, 1920.

The indications are that the building and loan idea is becoming better understood and appreciated by the community in general, and that these financial institutions will henceforth be accorded the respect and confidence to which they are justly entitled, because of their peculiar adaptation to the needs and requirements of the thrifty salaried employee and wage-earner in the matter of accumulation of savings, and their special function of enabling the salaried employee, the wage-earner and the laborer to obtain homes upon reasonable periodical payments, ordinarily but very little in excess of the cost of present rentals.

The improvement in the volume of business and assets during the past year has been unprecedented in the history of this state, and is apparently in full accord with the reported improvement in other states, where special attention has for years been devoted to the promotion of this form of the accumulation of savings.

The number of associations on the active list has been increased from 86 to 95, nine new associations having been formed and licensed during the year with several others in process of formation, but the number reporting—from which the tabulations and calculations herein are made—is only 87, as the first annual reports of the other eight will not be due to appear until the annual report for the seventy-second fiscal year.

The gross assets of these 87 associations, distributed over 26 counties of the state, now aggregate \$47,851,294.44 and indicate a net gain of \$9,476,962.53.

The following table gives the distribution of the associations by counties, with the number of active associations in each, the number reporting, the reported assets, and the increase or decrease in each.

DISTRIBUTION OF ASSETS BY COUNTIES.

Ventura -----	1	1	721,959 38	165,461 68	
Yolo -----	1	1	49,917 38	12,561 80	
Totals -----	95	87	\$47,851,294 44	\$9,496,626 77	\$19,664 24
Net increase -----				9,476,962 53	

The distribution of this increase and decrease, as between the several associations of four different grades as to assets, appears to be as follows:

Associa- tions	With assets of	Number showing gains	Number showing loss	Largest per cent of gain	Largest per cent of loss
29	Under \$100,000 -----	13	16	33	24
31	\$100,000 to \$500,000 -----	24	7	167	8
11	\$500,000 to \$1,000,000 -----	15	0	71	0
12	Over \$1,000,000 -----	11	1	87	1

From the foregoing distribution by counties it will be observed that only four of the counties, embracing in all only seven comparatively small associations, show a decrease in assets, and in no case of any material percentage.

From an examination of the schedule "Changes in Assets and Liabilities During the Past Year" it will be observed that the investment in shares and certificates have been materially increased as follows: Guarantee capital, \$280,228.56; installment shares, \$1,088,056.74; paid-up shares, \$1,985,956.18; investment certificates, \$3,512,529.19.

The principal decreases have been in real estate owned, \$571,212.60, and in sundry other liabilities, \$177,433.63, both of which materially benefit the financial standing of the associations directly involved.

The volume of outstanding loans shows an increase during the past year of \$9,312,176.18. The number of borrowers now appears to be 23,724, an increase of 2778, with an average loan to each of \$1,846.06.

The number of loans on real estate security for the year appears to have been 7,949, an increase of 3828, of which 2591 are reported to have been made for building purposes.

The volume and percentages of increase and decrease in the foregoing and in other material features of the business, during the past year, are condensed as follows:

INCREASES.

	Volume of increase	Percentage of increase
Assets	\$9,476,962 53	24.70
Loans	9,312,176 18	27.10
Cash in office and bank	330,986 81	28.10
United States and other bonds owned	416,022 58	53.70
Guarantee capital	280,228 56	23.80
Installment shares, dues	1,088,056 74	10.20
Paid-up shares	1,985,956 18	28.40
Investment certificates	3,512,529 19	30.50
Borrowed money	400,182 99	52.20
Reserve and undivided profits	57,240 75	3.60
Incomplete loans	1,544,751 02	488.40
Net profits for year	237,103 17	9.83
Number of members	1,489	5.47
Number of investors	2,703	24.51
Number of shares in force	33,595	9.33
Number of borrowers	2,778	24.51
Number of new real estate loans	3,828	92.89
Number of new building loans	1,654	180.39
Number of new associations	9	10.46

DECREASES.

	Volume of decrease	Percentage of decrease
Arrearages	\$12,109 67	7.20
Real estate owned	571,212 60	38.60
Other assets	16,621 64	41.40
Advance payments	1,862 71	4.50
Other liabilities	177,433 63	71.40
Number of loans on shares	44	4.71
Separate pieces of real estate owned	138	39.88

The receipts from shareholders and investors, during the year, were \$15,327,044.14, or the equivalent of 32 per cent of the present gross assets.

During the same period the reported disbursements on account of withdrawals and maturities were:

On account of principal invested-----	\$8,750,906.17
On account of profits and dividends-----	2,179,642.44
<hr/>	
An aggregate of-----	\$10,930,548.61

or more than 32 per cent of the liability to shareholders and investors at the beginning of the year, and the fact that practically 20 per cent of this disbursement was in the shape of profits and dividends is deserving of more than passing attention.

The reduction in the volume of real estate owned is particularly pleasing, as this now represents only 1.9 per cent of the gross assets, whereas at the time of the last report the volume then held represented 3.85 per cent of the then gross assets.

As predicted in the report for last year the new loans for building purposes show a material increase in number and percentage. At that time the reported new loans for building purposes were only 22.25 per cent of the loans upon real estate security, while the 2591 reported as made during the past year represent 32.59 per cent of all real estate loans made.

The 87 associations made loans at varying rates from as low as 6 to as high as 12 per cent, depending upon locality, security and local conditions. The mean average of all these rates was 7.933 per cent, a decrease of .037 per cent from the average of one year ago.

The income from interest collections, based on the average loans in force, was 8.009 per cent as against 8.349 one year ago, a decrease of 0.340 per cent.

The apparent gross income from all sources indicates a decrease of 0.355 per cent.

The reported expenses of operating, excluding taxes, amount to 1.242 per cent of the average loans in force, or an increase of 0.031 per cent.

CHANGES IN ASSETS SINCE 1910.

The changes in assets, as well as in the total roll and number reporting since 1910, are as follows:

Years	Total roll	Number reporting	Assets	Increase
1910 -----	113	107	\$21,255,176 49	\$1,027,060 09
1911 -----	105	96	23,340,012 38	2,084,835 89

Total roll June 30, 1920-----	99

FOREIGN ASSOCIATIONS.

The only association formed outside of California and thus far licensed to do business in this state is the Western Loan and Building Company, of Salt Lake City, Utah. On June 30 this association had 40,347 shares of installment stock in force in California, with dues and profits to the credit of the holders to the amount of \$175,097.35.

It had 165 loans then in force in this state of an original face value of \$481,100 on which repayments to the extent of \$51,499.78 had been made, leaving a net balance of \$429,600.22 still in force. Of these loans 125, with a net face value of \$315,915.80 were on deposit with the Commissioner under the provisions of section 646 of the Civil Code.

These shares, share values and loans are not included in the tabulations of the 87 California associations that go to make up this report

proper, but the assets of their California business are taken into consideration in the preparation of the assessment roll for fixing the annual license fees for the support of this office. In addition to regular license fees, foreign associations are, by law, required to pay the actual expenses of the commissioner or his deputies, incurred in making the annual examinations.

The report of the condition of this association may be found on the last page of the Appendix.

OPERATING EXPENSES TO LOANS.

Eliminating the element of taxes, over which the management has no control, the real operating expenses then appear as follows:

	For 1920	For 1919
For salaries	0.653%	0.689%
For other expenses	0.589%	0.522%
Totals	1.242%	1.211%

OPERATING EXPENSES TO DUES CAPITAL.

The percentage of operating expenses to the average "Dues Capital" in all classes of shares and certificates appears as follows:

	For 1920	For 1919
For salaries	0.748%	0.738%
For other expenses	0.670%	0.559%
Totals	1.418%	1.297%

GROSS INCOME AND PERCENTAGE OF EXPENSES TO INCOME.

The percentages of the apparent gross income, as reported by the several associations, to average volume of "loans in force" for each of the past three years are very closely approximated to be as follows:

	1920 (per cent)	1919 (per cent)	1918 (per cent)
Net profits, as reported.....	6.686	7.078	6.964
Taxes paid	0.119	0.131	0.156
Operating expenses	1.242	1.211	1.229
Apparent gross income.....	8.047	8.420	8.349
Ratio of operating expenses to income.....	15.434	14.382	14.720

GROSS INCOME AND EXPENSES TO DUES CAPITAL.

Applying the same calculations to the average "Dues Capital" for the past three years we then have,

	1920 (per cent)	1919 (per cent)	1918 (per cent)
Net profits, as reported.....	7.652	7.583	7.889
Taxes paid	0.136	0.141	0.177
Operating expenses	1.418	1.297	1.392
Apparent gross income.....	9.206	9.021	9.458
Ratio of operating expenses to income.....	15.403	14.377	14.718

The affairs of the four associations, listed as in process of liquidation, are still in an unfinished condition, mainly because of inability to satisfactorily dispose of real estate held, except in the case of the Benicia Building and Loan Association.

In this case it became necessary to begin action in foreclosure to recover on the security pledged. Upon trial, judgment was obtained by the Commissioner, but because of defective notarial work, and there being a homestead filing of record, the security of the realty pledged was held to be invalid. What portion, if any, of the judgment can eventually be recovered is somewhat problematical. As soon as this can finally be determined and one or two other delayed matters cleaned

up, a final report will be made to the proper court and the liquidation closed.

Acting under the provisions of the new section 647a of the Civil Code, six small associations in San Francisco have complied with all requirements necessary for consolidation in such manner as to form two associations of fairly good size. The necessary consent of the Commissioner has been given but the consolidation had not been fully completed at the close of the fiscal year.

This consolidation will reduce the actual number of associations in San Francisco by four, but the two resulting associations will unquestionably be in a better position for future work, and able to transact a larger business than heretofore, and in a much more satisfactory manner to all concerned.

As will be noted under the designation "Domestic Associations," nine new associations have been formed and licensed during the past fiscal year, three of which are in somewhat remote localities, and several others are in various stages of progress toward complete organization.

The formation of these new associations, and the great increase in the assets of the older associations necessitate the devotion of much more time to the making of the annual examinations required by law. In addition to this added time the increased railroad fares and hotel expenses are such as to render the present allowance for traveling expenses entirely inadequate for the proper performance of that work. The present allowances for office rent, and for office help and expenses are also insufficient to meet even the present demands for rent of proper quarters, and for office furnishing and current expenses that are almost imperative.

The necessary amendments to make provisions for these very essential features should be passed without delay at the coming session of the legislature, and should, under the provisions of the constitution, be made matters of "urgency" so that they may become effective at once.

Under the laws of the State of Massachusetts building and loan associations are known as "cooperative banks" and the words "Cooperative Bank" must form a part of the corporate name of every such organization.

Under the laws of the State of Ohio they are known as "savings associations," and under the laws of the State of New York they are distinctly defined as "savings and loan associations," and that term includes every corporation, company or association whose shares are wholly or in part payable by a cumulative fund, or in regular periodical installments.

Under the laws of practically every state their function is to encourage industry, frugality, home building and saving of money, the accumulation of savings, and the lending of such accumulations to their members and others, but in no case is their business conducted after the manner prescribed by law for the conduct of savings banks.

They appeal distinctly to the wage-earner and the salaried employee, as a medium for the accumulation of his small weekly or monthly savings and the acquiring of a home, as the result of such accumulation.

Because of these features and conditions it would seem meet and proper that the laws of this state should be so amended that they may hereafter be permitted to use the word "savings" and describe themselves as "savings associations," a name and title actually featuring their peculiar functions, and such an amendment is earnestly recommended for early adoption.

Included in the published Appendix with this report will be found a list of all the building and loan associations of which this bureau has any record, as having been authorized, organized or licensed under the several acts creating this department, from 1893 to 1920, inclusive, together with the "Explanation Key" immediately following, explaining the meaning of the letters and figures, preceding the figures of the year when closed or action taken, in the "Closed" column.

Because of the destruction of the records of this department, in the great fire of April 18-20, 1906, the history herein presented is not claimed to be absolutely perfect, but it is believed to be as nearly so as is now possible to be compiled.

CONCLUSION.

Immediately following in the published report will be found a detailed statement of the receipts of this department, the names and address of the several secretaries, and the usual "Appendix" containing a condensed annual statement of the condition of each association, as of the close of its fiscal year, arranged in alphabetical order, both as to the city or town of location and to names of the associations therein, closing with the latest report of foreign associations doing business in this state.

Respectfully submitted,

GEO. S. WALKER,

Commissioner.

SIXTH REPORT

OF THE

CALIFORNIA STATE BOARD OF ARCHITECTURE

To His Excellency,

WILLIAM D. STEPHENS,

Governor of the State of California:

The California State Board of Architecture herewith submits for your consideration, its sixth report, covering the period from July 1, 1915, to November 1, 1920.

In accordance with the provisions of "An act to regulate the practice of architecture," the State Board of Architecture shall consist of ten members, five of whom shall reside in the Northern District of California and shall constitute the Northern District Board for the examination of applicants for certificates to practice architecture in this state, and five members of said Board shall be residents of the Southern District of California and shall constitute the Southern District Board for the examination of applicants for certificates to practice architecture in this state.

The Board is at present constituted as follows:

JOHN PARKINSON, Los Angeles.....	<i>President</i>
CLARENCE R. WARD, San Francisco.....	<i>Vice-President</i>
SYLVAIN SCHNAITTACHER, San Francisco..	<i>Secretary-Treasurer</i>
A. M. EDELMAN, Los Angeles..	<i>Assistant Secretary-Treasurer</i>
WILLIAM J. DODD, Los Angeles	
WILLIAM H. WHEELER, San Diego	
MYRON HUNT, Los Angeles	
JAMES R. MILLER, San Francisco	
JOHN J. DONOVAN, Oakland	
EDWARD GLASS, Fresno.	

The Northern District Board, with offices at 1040 Phelan Building, San Francisco, is as follows:

CLARENCE R. WARD.....	<i>President</i>
SYLVAIN SCHNAITTACHER.....	<i>Secretary-Treasurer</i>
JAMES R. MILLER	
JOHN J. DONOVAN	
EDWARD GLASS	

The Southern District Board, with offices at Pacific Finance Building, Los Angeles, is as follows:

JOHN PARKINSON	-----	<i>President</i>
A. M. EDELMAN	-----	<i>Secretary-Treasurer</i>
WILLIAM J. DODD		
WILLIAM H. WHEELER		
MYRON HUNT		

The period elapsing since the last report was written has not been marked by any outstanding events which might affect the policy or functions of the Board. The depression preceding the entry of this country into the World War had the effect of materially curtailing the number of candidates applying for certificates. The declaration of war, war time restrictions on building construction and the great number of men in service resulted in almost a total cessation of new applications and it is only within the present year that there has been a return to normal. The Board as a recognition of the sacrifice made by those engaged in war service, remitted the annual license fee for the period of their service. Lists of those who served are appended.

The annual meetings of the joint Boards were held as follows: April 11, 1916, San Diego; April 10, 1917, San Francisco; April 9, 1918, Los Angeles; April 8, 1919, San Francisco; April 13, 1920, Los Angeles.

Special meetings were held at Santa Barbara, January 6, 1917; Santa Barbara, November 22, 1919; San Francisco, October 23, 1920. In addition, each Board has held the usual stated meetings. Two written examinations have been held each year for the Northern District Board at the University of California at Berkeley, and for the Southern District Board at the University of Southern California, Los Angeles. (For number of certificates issued, see financial statements.)

The following modifications of the rules of the Board were adopted at the meeting of the joint Boards held at Santa Barbara, January 6, 1917. The period of practical experience required for graduates of technical schools in addition to diploma of graduation was increased from two years to three, and the practical experience of candidates without said training was fixed at five years previous to application for examination. At the same meeting arrangements were effected for a uniform list of questions for concurrent examinations in both districts and also for marking the papers, it being decided that the questions should be prepared and corrected by instructors in the Department of Architecture at the University of California, Berkeley.

The amendments to the act prepared by this Board which failed to pass out of the Assembly Judiciary Committee in 1915, although passed in the Senate, were again taken up for the 1917 session. However, a portion of the profession felt that these amendments were not suf-

ficiently drastic and a bill proposed by the Southern California Chapter of the American Institute of Architects repealing the present law and offering a substitute act was introduced and the Boards' amendments not offered. This bill which was radical in the extreme was considered at a meeting held at Santa Barbara on January 6, 1917, and the proponents of the measure were warned by the members of the Board that it would not carry. The bill provoked much opposition, criticism of the architectural profession, and failed of passage.

Owing to the war conditions no attempt was made to prepare amendments to the law for the 1919 session of the Legislature. It is hoped to offer two amendments at the 1921 session which should be a means of affording a better enforcement of the act and at the same time interfere with none of the rights of those wishing to prepare plans for their own purposes or others so long as they do not represent themselves as architects. The special meeting for the purpose of considering these amendments was held in San Francisco October 23, 1920.

An important decision affecting the interpretation of the act was rendered by the Supreme Court in the case of *Binford vs. Boyd*, Los Angeles, No. 5559, decided June 29, 1918, and reported in Vol. 56 at page 19 of the California Decisions. A copy of the circular issued by the Board *in re* this decision, with the opinions of the Boards' attorneys is included in this report.

Several arrests have been made for the violation of the act and convictions secured in both districts; however, a number of men still continue to evade the law by misuse of the title of architect, a condition which can be more readily corrected if the act be amended as the Board will request of the next Legislature.

The rules of the Board have been modified as regards finances to conform to the rules of the State Board of Control, the new system of bookkeeping and accounts having been inaugurated in the Northern District Board and is operating very successfully and similarly inaugurated in the Southern District Board on November 1, 1920.

On October 7, 1919, Governor William D. Stephens appointed the following as new members of the Southern District Board, to succeed Will S. Hebbard, John P. Krempel, Sumner P. Hunt, Octavius Morgan and Frederick L. Roehrig: Messrs. John Parkinson, William J. Dodd, Myron Hunt, William H. Wheeler and A. M. Edelman. The following new members of the Northern District Board were appointed to succeed J. Cather Newsom, Edgar A. Mathews, John Bakewell, Jr. (resigned), William Curlett (deceased): Mr. Sylvain Schnaittacher was reappointed, the new members being Clarence R. Ward, James R. Miller, John J. Donovan and Edward Glass.

The Board is in thorough accord with the principles laid down by its predecessors, that the act if properly amended can be made an instru-

ment of value in that the certificate of the State Board to practice architecture is evidence that the possessor has a reasonable degree of competence in his profession, and is a protection for the public against the shyster and incompetent, while at the same time permitting such operations as do not encroach on the misuse of the title "architect."

All of which is respectfully submitted.

Dated November 1, 1920.

CLARENCE R. WARD,
President.

SYLVAIN SCHNAITTACHER,
Secretary and Treasurer.

AN ACT TO REGULATE THE PRACTICE OF
ARCHITECTURE.

(CHAPTER CCXII.)

(Approved March 23, 1901.)

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. Within sixty days from and after the passage of this act, the Governor of the state shall appoint ten persons, which persons so appointed shall constitute a board, which board shall be known and designated as the State Board of Architecture. Five members of said Board of Architecture shall be residents of the Northern District of California, and shall constitute the Northern District for the examination of applicants for certificates to practice architecture in this state. And five members of said board shall be appointed from the Southern District of California, and shall constitute the Southern District Board for the examination of applicants for certificates to practice architecture in this state. The Northern District shall be all that portion of the state north of the northerly line of the county of San Luis Obispo and the county of Kern and the county of San Bernardino. And the Southern District shall be all that portion of the state south of the northerly line of the county of San Luis Obispo and the county of Kern and of the county of San Bernardino. Said State Board of Architecture shall be appointed by the Governor as follows: Five members shall be appointed from the members in good standing of the San Francisco Chapter of the American Institute of Architects, or some similar institution or association of architects, two of whom shall be designated to hold office for two years. Five members shall be appointed from the members of the Southern California Chapter of the American Institute of Architects, or some similar institution or association of architects, two of whom shall be designated to hold office for two years. Each person so appointed shall hold office for four years, unless so designated to hold office for two years. And thereafter, upon the expiration of the term of office of the persons so appointed, the Governor of the state shall appoint a successor or successors to such outgoing person or persons whose term of office shall have expired, to hold office for four years; *provided*, that the membership of the State Board of Architecture shall be composed as herein set forth. Each member shall hold over after the expiration of his term of office until his successor shall have been duly appointed and qualified. Any vacancy occurring in the membership of the Board shall be filled by the Governor of the state for the unexpired term in like manner. The members of the Board shall serve

without compensation from the state. The expenses of the Board shall be paid out of the fees collected from applicants for certificates.

SEC. 2. The members of the State Board of Architecture shall, before entering upon the discharge of the duties of their office, take and file with the Secretary of State the constitutional oath of office. The said State Board of Architecture shall, within thirty days from and after their appointment, meet and elect from their number a President and a Vice-President, one of whom shall be a resident of the Northern District, and one a resident of the Southern District, and two Secretaries, one from each district. The Secretaries shall also act as Treasurers. The person receiving the highest number of votes shall be Secretary, and the person receiving the next highest number of votes, Assistant Secretary. Said persons shall hold office for two years, or until their successors shall have been duly elected and qualified.

SEC. 3. The Board may adopt rules and regulations for the government of its proceedings, not inconsistent with this act. The State Board shall adopt a seal for its own use, and one for each of the District Boards. The seal used by the Northern District Board shall have the words "Northern District" inscribed thereon, and the one for the Southern District shall have the words "Southern District" inscribed thereon, and the Secretary and Assistant Secretary shall have charge, care and custody thereof. The Secretary shall keep a correct record of all the proceedings of the Board, which shall be open to public examination at all times. Six members shall constitute a quorum for the transaction of business of the State Board of Architecture, and three members shall constitute a quorum of the District Boards for the transaction of business. Special meetings of the State Board of Architecture shall be called by the Secretary upon the written request of four of its members, and by giving twenty days' written notice of such meeting, and the time and place at which such meeting is to be held, to each member of the Board. The District Boards shall call special meetings upon the written request of two of its members made to the Secretary, and upon five days' written notice to each member of such District Board. Within thirty days from and after the date of their appointment, the State Board shall meet to organize, elect officers as in this act provided for, and formulate and adopt a code of rules and regulations for its government in the examination of applicants for certificates to practice architecture in this state; and such other rules and regulations as may be necessary and proper, not inconsistent with this act. The Board may from time to time repeal or modify its rules and regulations, not inconsistent with this act. The State Board shall meet annually, on the second Tuesday in April, for the purpose of transacting such business as may lawfully come before it, not inconsistent with this act.

The District Boards shall hold their regular meetings for the examination of applicants for certificates to practice architecture on the last Tuesday of January, April, July and October of each year. The Board of the Northern District shall meet in San Francisco; and the Board of the Southern District shall meet in Los Angeles, and at such other times and places as they may elect, to examine applicants for certificates. Any person shall be entitled to an examination for a certificate to practice architecture, upon payment, to the District Board when he makes application, of a fee of fifteen dollars, which fee shall be retained by the Board; should the applicant pass a satisfactory examination by said District Board, the Secretary shall, upon the payment to him of a further fee of five dollars, issue to the applicant a certificate, signed by the President and Secretary, sealed with the seal of the District Board, and directed to the Secretary of State, setting forth the fact that the person therein named has passed a satisfactory examination, and that such person is entitled to a certificate to practice architecture in this state, in accordance with the provisions of this act; and upon the payment to the Secretary of State of a fee of five dollars, the Secretary shall at once issue to the person therein named, a certificate to practice architecture in this state in accordance with the provisions of this act, which certificate shall contain the full name of the applicant, his birthplace, and age, together with the name of the District Board issuing the certificate, and date of issuance thereof. All papers received by the Secretary of State on application for certificate shall be kept on file in his office, and a proper index and record thereof shall be kept by him.

SEC. 4. Any architect in good standing, who shall show to the satisfaction of the District Board of the district in which such architect may reside, that he was engaged in the practice of the profession of architecture on the date of the passage of this act, shall be granted a certificate without passing an examination, on the payment to the District Board of a fee of five dollars; *provided*, such application shall be made within six months from and after the passage of this act. Said certificate shall set forth the fact that the person to whom the same was issued was practicing architecture in this state at the time of the passage of this act, and that the person therein named is entitled to a certificate to practice architecture without having to pass an examination by the District Board; and the Secretary of State shall, upon the payment to him of a fee of five dollars, issue to the person named therein a certificate to practice architecture in this state, in accordance with the provisions of this act. Each certificated architect shall have his certificate recorded in the office of the county recorder, in each and every county in this state, in which the holder thereof shall practice, and

he shall pay to the recorder the same fee as is charged for the recording of deeds. A failure to have his certificate so recorded shall be deemed sufficient cause for revocation of such certificate.

SEC. 5. After the expiration of six months from the passage of this act, it shall be unlawful, and it shall be a misdemeanor, punishable by fine of not less than fifty dollars nor more than five hundred dollars, for any person to practice architecture without a certificate in this state, or to advertise, or put out any sign or card, or other device which might indicate to the public that he was an architect; *provided*, that nothing in this act shall prevent any person from making plans for his own buildings, nor furnishing plans or other data for buildings for other persons, provided the person so furnishing such plans or data shall fully inform the person for whom such plans or data are furnished that he, the person furnishing such plans, is not a certificated architect; *provided*, that nothing in this act shall prevent the employment of an architect residing out of the State of California, to prepare plans and specifications for buildings or other structures within the state, conditioned, he shall present satisfactory evidence to the Board of the District in which the structure is to be erected, that he is a competent architect, when such Board shall issue to such architect a temporary certificate for such employment, upon the payment of a fee of five dollars. Architects' certificates issued in accordance with the provisions of this act shall remain in full force until revoked for cause, as hereinafter provided for in this act. A certificate may be revoked for dishonest practices, or for gross incompetency in the practice of the profession, which questions shall be determined by the District Board of the district in which the person whose certificate is called in question shall reside, or shall be doing business; and upon a full investigation of the charges by the District Board, an opportunity having been given the accused to be heard in his own defense or by counsel; and upon the verdict of at least four members of the District Board, the Board may issue its certificate to the Secretary of State revoking the certificate of the person accused; and the Secretary of State shall thereupon cancel such certificate. And on the cancellation of such certificate, it shall be the duty of the Secretary of the District Board to give notice of such cancellation to the county recorder of each county in the state, whereupon the recorder shall mark the certificate recorded in his office, "cancelled."

After the expiration of six months, the person whose certificate was revoked, may have a new certificate issued to him by the Secretary of State upon the certificate of the District Board by which the certificate was revoked.

Every certificated architect shall have a seal, the impression of which must contain the name of the architect, his place of business, and the

words "certificated architect," with which he may stamp all plans prepared by him.

SEC. 6. This act shall take effect from and after its passage.

AMENDMENT TO ACT.

An act to amend an act entitled "An act to regulate the practice of architecture, approved March 23, 1901," adding a new section thereto to be numbered section seven, relating to an annual license fee.

(Approved March 26, 1903.)

The people of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. An act to regulate the practice of architecture, approved March 23, 1901, is hereby amended by adding a new section thereto to be numbered section seven.

SEC. 7. Each regularly certificated architect shall pay an annual license fee of five dollars, said fee to be paid to the secretary of the board of the district of which he shall be a resident, and shall be payable in advance on January 1, and shall become delinquent the first day of April of each year, after which date it shall be delinquent, and the certificate of such architects who shall fail to pay their license fees by April 1 of each year, shall be subject to cancellation by said district board, and notice of such cancellation shall be sent to each county recorder of the State of California and to the Secretary of State, as provided in section five of the act to regulate the practice of architecture, approved March 23, 1901, for cancellation of certificates. And the Secretary of said District shall issue a receipt signed by the President and Secretary of the District, and under the seal of the District Board, to each architect paying said license fee, showing that said certificated architect has paid his annual license fee, which license receipt shall be displayed in a prominent place in the office of said architect. The fees so collected shall be used to meet the expenses of the State Board of Architecture.

SEC. 2. This act shall take effect immediately.

RULES AND REGULATIONS OF THE CALIFORNIA STATE
BOARD OF ARCHITECTURE.

RULES.

Robert's Rules of Order are adopted as the rules of this Board for the conduct of business at its meetings.

OFFICERS.

The State Board of Architecture shall elect from its number a President and a Vice-President, one of whom shall be a resident of the Northern District, and one a resident of the Southern District, who shall be respectively the President of the District Boards; and two Secretaries, one for each district. The Secretaries shall also act as Treasurers. The person not resident of the same district as the President receiving the highest number of votes shall be the Secretary, and the person not resident of the same District as the Vice-President receiving the highest number of votes shall be Assistant Secretary. The Secretary and Assistant Secretary must be residents of different Districts and shall be Secretaries of their respective Districts. Said officers shall hold office for two years, or until their successors shall have been duly elected and qualified.

The Board shall adopt a seal for its own use and one for each of the District Boards. The seal used by the Northern District Board shall have the words "Northern District" inscribed thereon, and the one of the Southern District shall have the words "Southern District" inscribed thereon, and the Secretary and the Assistant Secretary shall have respectively the charge, care and custody thereof.

The Secretary shall keep a record of all the proceedings of the Board, which shall be open to public examination at all times.

Six members shall constitute a quorum of the State Board and three members shall constitute a quorum of the District Board, for the transaction of business.

The certificates of competency to practice architecture, shall be signed by the President and Secretary of the District Board by which the certificate shall be ordered issued.

MEETINGS.

The annual meetings of the State Board shall be held alternately in San Francisco and Los Angeles. The quarterly meetings of the District Boards shall be held respectively in San Francisco and Los Angeles. The annual meetings of the State Board shall be held on the second Tuesday in April. Special meetings of the State Board shall be called by the Secretary, upon the written request of four of its members, and by giving twenty days' notice in writing of such meeting,

and the time and place at which such meeting is to be held, to each member of the Board.

The District Boards shall hold their regular meetings for the examination of applicants for certificates to practice architecture, on the last Tuesday of January, April, July and October of each year.

The District Boards shall call special meetings for their respective Districts, upon the written request of two of its members, made to the Secretary of the District, and upon five days' written notice to each member of such District.

The chief place of business for the Northern District shall be San Francisco, and for the Southern District, Los Angeles.

Special meetings may be held for the purpose of examining applicants for certificates, at such places as the District Board may elect, due notice of the time and place being given to the applicants.

FINANCE.

The conduct of the finances of each District Board shall conform to the rulings of the State Board of Control. All checks shall be signed by the Secretary-Treasurer of each District Board.

EXAMINATIONS.

There shall be a standing committee on examinations, consisting of six members. Said committee shall consist of the President, the Vice-President and two members from each District Board. They shall report a programme for examinations for certificates and for all other matters connected therewith.

The District Board shall issue certificates to architects entitled to receive them, as provided for under section four of the act to regulate the practice of architecture in the State of California, approved March 23, 1901.

The District Boards shall have authority to issue temporary certificates to nonresident architects of the state, who shall show to the satisfaction of the Board their competency to practice architecture. Such temporary certificates shall be for stated buildings. The fee for such temporary certificates shall be five dollars. The temporary certificates shall be issued by the Board of the District in which the structure is to be erected.

In all cases where the applicant for examination for a certificate to practice architecture in the State of California shall submit to the Board satisfactory evidence as to character, competency and qualifications, and show that he has been continuously and exclusively engaged in the practice of architecture on his own account or as a member of a reputable firm or association of architects for more than ten years prior to the date of his application, or that he has been granted a certificate to practice architecture in another state or country where the standard

of qualification is not lower than that required by this Board, then and in such case the demonstration of the applicant's knowledge and ability so made, if found sufficient by the Board, may take the place of written and oral examinations.

In carrying out this rule, the personal attendance of the applicant, if a resident of the state, before a meeting of the Board or of an examination committee, shall be required before the certificate is issued. Applicants for certificates, residing in other states, may have their cases considered at any meeting of the Board, without personal appearance, provided the exhibits submitted, with proofs of the previous execution of works which establish an ability equal to what is demanded in a regular examination, are satisfactory.

Each member of a firm practicing architecture, must have a separate certificate.

The regular class examination shall occupy not less than four days, approximately in the months of January and May—two days shall be devoted to ascertain the ability of the candidate to make practical application of his knowledge in the ordinary professional work of an architect, including structural design and supervision of buildings, and two days will include an effort toward ascertaining the qualifications of the applicant in architectural design, theory and history.

A diploma of graduation from the full four years' course in architecture in any University or Technical School, approved by the Board, with at least three years' experience in an architect's office, may be accepted as satisfactory evidence of a competent knowledge of architectural design and construction required for a certificate to practice as an architect in California according to law, and those applicants for certificates not having college or technical training shall have at least five years' experience in an architect's office prior to making application for examination.

Applications will be received at all times. If the number and urgency of the applications received make it seem expedient to the Board to institute examinations at any other than the times heretofore mentioned, due notice of such additional examinations will be forwarded by the Secretary to those whose applications are on file at his office. Applications for the regular examinations should be at the Secretary's office, one week before the date set for examination.

The Board meets on the last Tuesday of each month, at which time candidates may present themselves before the Board with drawings (3 sets complete), photographs, letters and other data demonstrating their experience and qualifications.

The written examinations are held semiannually at the University of California, at Berkeley, approximately in the months of January and May.

ARCHITECT'S INDIVIDUAL SEAL.

The architect's individual seal is for the purpose of making an impression, hence a rubber stamp will not be permitted.

SUBJECTS FOR EXAMINATION.

Subjects covered by the written examinations are as follows:

IN RE DECISION IN THE CASE OF BINFORD vs. BOYD.

[NOTE.—The State Board of Architecture, Northern District, believing that the decision in the case of *Binford vs. Boyd*, Los Angeles, No. 5559, decided June 29, 1918, is of special interest to the architectural profession, had printed the following opinions on the decision, as presented by the attorneys of the two District Boards.]

(COPY.)

CALIFORNIA STATE BOARD OF ARCHITECTURE,

Union League Building, Los Angeles, California,

Subject: Opinion *re* decision in *Binford vs. Boyd*.

GENTLEMEN: You have requested me to express to you my opinion relative to the effect of the recent decision of our Supreme Court in the case of *Binford vs. Boyd*, Los Angeles, No. 5559, decided June 29, 1918, and reported in Vol. 56, at page 19, of the California Decisions, with particular reference to the application of an act to regulate the practice of architecture (Statutes 1901, page 641) to corporations engaged in the architectural business.

The facts upon which the decision referred to was based are briefly as follows:

The corporation in question undertook to furnish plans and specifications for a building to be erected by the defendants without fully advising the defendants that it was not a certificated architect, and the defense to the action was primarily based upon noncompliance with this condition of the act.

It is universally held that while the legislature may prescribe the form in which contracts shall be executed in order that they may be valid or binding, it cannot limit the right of parties to incorporate into their contracts respecting property, otherwise valid, such terms as may be mutually satisfactory to them, but that this right of freedom of contract is subject to such reasonable police regulations as the legislature may enact tending to promote the public good, and, therefore, the constitutionality of your act limiting the freedom of contract must necessarily be upheld as a legitimate exercise of the police power of the state and can only be upheld to the extent that the exercise of this power is reasonably required for the protection of the public interest.

The Supreme Court in the case under consideration clearly points out the necessity for such construction on page 21 of its decisions, from which I quote as follows:

"The statute cannot be upheld as a police measure on the ground that it tended to promote the prosperity of those following the profession of architecture by giving such persons, who could obtain a license, an advantage over others. It can only be upheld upon the theory that the legislature believed that it was injurious to the public interest to allow unskilled and unqualified persons to prepare plans and specifications for the erection of buildings, owing to the dangers which might arise from defects in plans or construction."

Having in mind the foregoing, it follows that the public is afforded the full measure of protection contemplated by the act if plans and specifications are prepared by a certificated architect and irrespective if such plans and specifications be presented to the purchaser by a certificated architect, his agent or a corporation that may have purchased the same from him for the purpose of resale or may have employed him for the purpose of preparing the same.

Our Supreme Court in the application of the rules above stated held that the corporation furnishing the plans and specifications prepared by a certificated architect was legitimately entitled to recover the contract price thereof, and with this expression of opinion I am in full accord.

Departing from the point determined by the court as above, and considering the decision as a whole with reference to its effect upon your act, I am of the opinion that the decision tends materially to clarify the situation and to strengthen rather than weaken your endeavors to enforce the act, in that it in effect holds that a corporation cannot engage in the practice of architecture and may only perform a certain part of the functions of an architect, namely, the sale of plans and specifications (1) prepared by a certificated architect, or (2) where the purchaser is fully advised that the plans and specifications have been prepared by a non-certificated architect.

By reference to your file and particularly to my correspondence bearing upon the case of Otto H. Neher, you will note that I divide the practice of architecture into two main subdivisions following the lines suggested by the Hon. Charles M. Monroe, the judge before whom this case was heard in part, to wit: (1) the furnishing of plans and specifications, and (2) the architectural supervisions of construction. The former function under the act can be performed under the conditions specified by a non-certificated architect, while the latter functions only by a certificated architect. Inasmuch as in the decision under consideration our Supreme Court has held that there is no provision in law for the certification of a corporation as an architect, it necessarily follows that its architectural business must be confined to the preparation of plans and specifications and that it cannot engage in the practice of architect generally, except through the medium of a certificated architect.

Further, that a corporation contracting to furnish full architectural services, namely, to prepare plans and specifications and act as supervising architect under construction without using the medium of a certificated architect, could only recover from the owner for the former services rendered and then only in the event that it fully complied with the conditions of the act relative to disclosure. It likewise follows that the corporation, or its agents, undertaking to perform directly the functions of an architect would be liable for prosecution under your act.

I have had the opportunity of reading the letters of John R. Selby, Esq., the attorney for the Northern District, and am in full accord with the views therein expressed.

Respectfully submitted.

(Signed) WILLIS I. MORRISON.

CALIFORNIA STATE BOARD OF ARCHITECTURE,

Phelan Building, San Francisco, California,

Subject: Opinion *re* decision in *Binford vs. Boyd*.

January 20, 1919.

GENTLEMEN: The decision of *Binford vs. Boyd* strengthens the architectural act in my opinion. The court in that case, could have decided that no corporation could be prosecuted for doing architectural work without a certificate, that the act operated only on individuals, and therefore affirmed the judgment below in favor of the plaintiff corporation. But the court did not take that attitude at all, placing its decision in favor of plaintiff solely upon the ground that the corporation plaintiff had employed to do the work certificated architects, and saying, in so many words, that the act was effective upon corporations to the extent that while it did not require the corporation to have a certificate, it did require the corporation to have the work done by certificated architects, or to disclose to its clients the want of legal qualification of the persons to do the work.

It will be urged that this is a mere dictum; that all that was decided was that a corporation performing architectural services which were actually done by certificated architects could do business and recover fees, and that it was unnecessary to consider the case of a corporation employing uncertificated architects.

However, the language of the opinion will be accepted in later cases as a judicial construction of the act, and will be followed.

Yours very truly,

(Signed) JOHN R. SELBY.

NOTICE TO ARCHITECTS.

December 12, 1919.

DEAR SIR: Many certificated architects fail to comply with section 4 of the "Act to regulate the practice of architecture," which provides that each certificated architect shall have his certificate recorded in the office of the county recorder, in each and every county in this state in which the holder thereof shall practice. Your failure to observe this provision may jeopardize your position in the event of legal proceedings of any kind in which you might become involved.

It has also been brought to the attention of the Board that the use of the seal on all drawings as mentioned in section 5 has been neglected. In the opinion of Mr. John R. Selby, attorney for the Board, this provision of the act is mandatory as to the use of a seal.

It cannot be too forcibly brought to your attention that it is incumbent on you to assist in upholding professional standards by using all legitimate means to impress the public with the dignity of the position of the certificated architect, and by using the seal on your drawings and other documents you will be assisting very materially to this end. The impression of the seal here affixed is submitted as being correct as to form. The seal when applied to tracings will blue-print better if slightly blackened with a pencil.

Yours very truly,

CALIFORNIA STATE BOARD OF ARCHITECTURE,
NORTHERN DISTRICT.

SYLVAIN SCHNAITTACHER, *Secretary*.
